

UFO LED Highbay Series

PRODUCT DESCRIPTION

The UFO series has the high-performance solution for the most demanding applications within a unique design. With different precision refractive optical lens and an easy-install design, it can be used in many applications such as workshop, warehouse, indoor stadium, factories, stockrooms, hotel, supermarket, etc.

FEATURE

1. Air cooling Design
2. IP65 Rated Enclosure
3. Suspension or Bracket Mounting
4. Optional Black or White color
5. Optional with Microwave Sensor
6. Optional with Emergency Driver

ETL DLC	N	Y	Y	Y	N	N
Model differences	Different installation accessories:E1-Ring mounting;E2-Bracket mounting					
Light Source	SMD LED					
Luminous Efficacy	130lm/W					
Operation Temp.	-40 to +45℃					
CCT	2700K SW / 3000K WW / 4100K NW / 5000K DW / 5700K CW					
CRI	70+					
Life Span	50,000 hours at 25℃					
Voltage	100-277VAC/50-60Hz		200-480VAC/50-60Hz Available			
Driver	UL listed power supply					
Dimming	Available		Dali dimming optional			
Emergency module	Opthional,Emergency Driver A or B					
Sensor	Microwave sensor available					
Control System	APP, remote control, touch screen, light control and other control options available					
Beam Angle	120°（Transparent, Matte）		60° 90°（Lens）			
Cover	Transparent, Matte, Lens available					
IP	65					
PF	>0.95					
Warranty	5Years					

PROJECTS

By using our 100W Highbay Light to replace 300W Metal Halide bulb for warehouse high bay lighting fixtures, the customer is now able to save a lot per month from his electric bill.

Notes:

1. Don't take the LED lamp apart.
2. The LED lamp must work under the right voltage according to the specification.

LUMINOUS INTENSITY DISTRIBUTION

DETAILS

1. 3030 SMD LED, Imported chips.
2. Aluminum die-casting heat sinks is good for heat dissipation.
3. UL listed power supply, Safe and reliable, long life.
4. It's major to replace the conventiona highbay light.
5. Green, energy saving, long and reliable life of 50,000 hours.
6. No RF interference, No IR/UV radiation ,no mercury pollution.
7. Wide colour availability in degrees Kelvin(K),2700-6700K.
8. Streamline exterior design, beautiful appearance.
9. Environment friendly ,energy saving (70~80%).
10. Special circuit design, each LED work separately, avoiding the single broken LED influence problem.

APPLICATION

- Parking area lighting
- Workshop lighting
- Warehouse lighting
- Indoor stadium lighting
- Factories lighting

Warehouse lighting

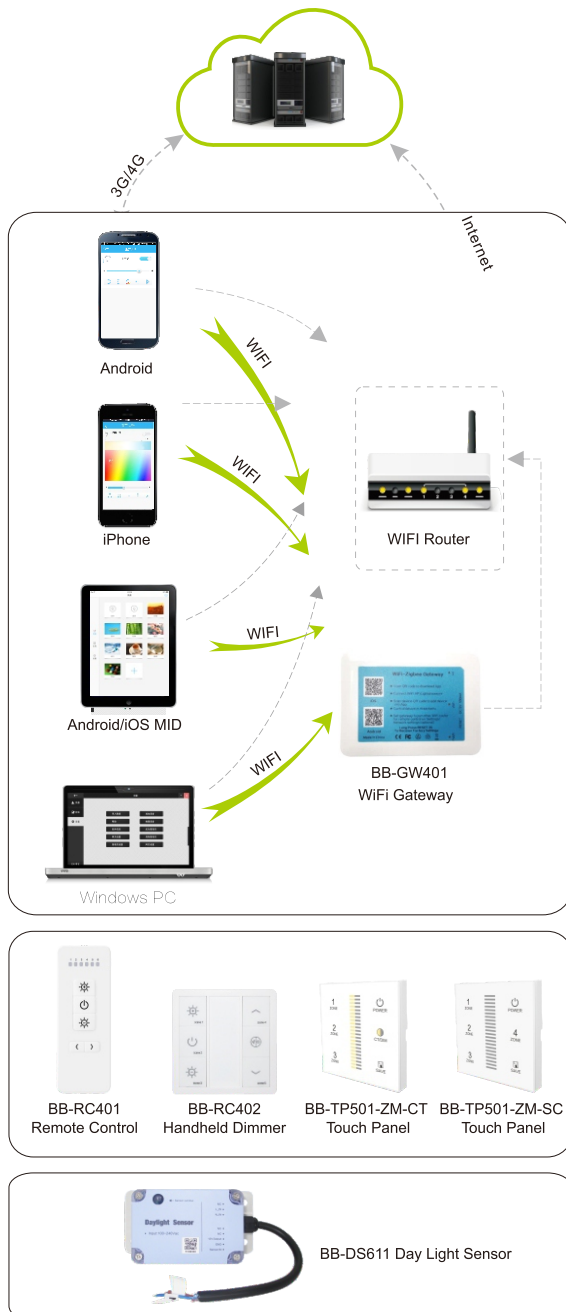

Factories lighting

Garage lighting

HIGHBAY CONTROL SYSTEM

- Support automatic luminance change with embedded daylight sensor.
- Support automatic CCT change with embedded temperature sensor for CCT light.
- Support more 500 devices control by one gateway, one app.
- Support frequency hopping technology for strong anti-jamming ability.
- Support mesh network, control range is more 50 meters.
- Support storage of 500 devices QRcodes in gateway.
- Support schedule settings for each device.
- Support above 10 mobile devices control on station mode.
- Support remotely control via internet on station mode.
- Support remote control/touch panel/handheld dimmer control as optional.
- Support scene/area/group control based on user preset.
- Support encryption transmission.
- Support iOS/Android/Windows app.
- Support Motion sensor

iLightsIn Apps

The Apps can download from Apple app market and Android app market by searching iLightsIn. Windows version is also ready.

Optional Accessories

Wiring

*Only Wireless Dimmable Controller and Day Light Sensor must be wired in accordance with the above wiring.

*WiFi Gateway and Touch Panel are energized through an adapter, respectively.

ACCESSORIES

Microwave Sensor

UFO With White Microwave Sensor

UFO With Black Microwave Sensor

When someone enters the induction area during the day, when the light is sufficient, the lamp will not light.

Evening to night when the lack of light, people into the lamp sensor area, the lights automatically open 100% brightness.

When the person leaves the sensing area, the brightness of the fixture will dim to 0/10% /20%/ 30% (optional) after the full delay time.

After the dimming delay time, if no one into the sensor area, the lights automatically shut down.

Accessories Options

Chain

Wire rope

Emergency LED Driver

UFO With Emergency Driver A

UFO With Emergency Driver B

Emergency Driver A

Operation

- ★ AC operation, when AC power supplies to the AC driver and , the AC driver will operate the LED load as designed. Then the will be kept as charging status, and the indicator light will keep lighting. When press the test button, it will change into emergency status at a reduced lumen output for 30 seconds, during this time, the indicator will flash slowly (light on for 2 seconds, off for 2 seconds); then 30 seconds later, it will recover into AC operation.
- ★ Emergency operation, When AC power fails, automatically switches to emergency mode, keeping the LED load illuminated at a reduced lumen output for a minimum of 90 minutes, during this time, the indicator will flash slowly (light on for 2 seconds, off for 2 seconds); when AC power is restored, it will return to charging mode, and the indicator light will keep lighting.

SELF-TEST

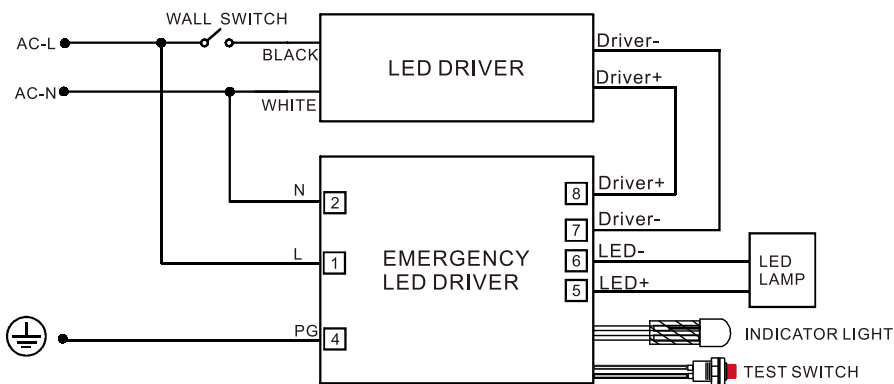

- ★ The contain a control/monitor circuit which will perform a 30-second discharge test once a month and a full 90-minute discharge test once a year. At this time, the unit simulate an AC power failure and automatically switch to emergency mode. During routine testing, the unit will monitor the operation of the LED load, battery voltage, and emergency duration, if the unit detect any problems, the indicator will flash quickly.

Emergency Driver B

Feature

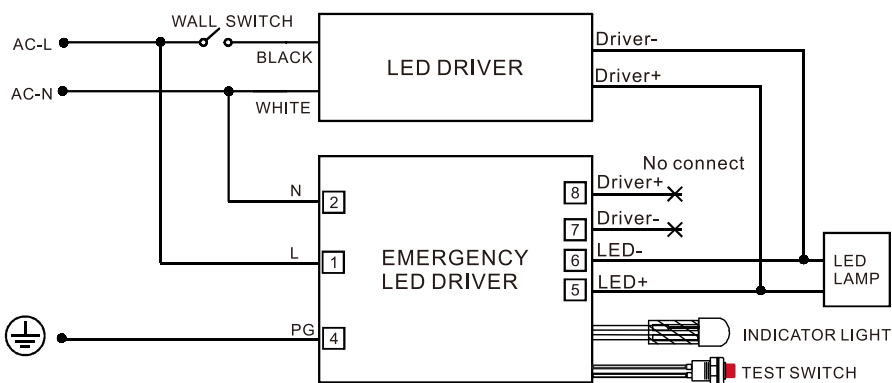

- ★ UL Listed for us and canada.
- ★ Listed to UL924 and tested to CSA C22.2 NO.141 Field or factory installation.
- ★ High voltage output.
- ★ Low energy consumption CEC compliance.
- ★ Constant output power.
- ★ Self-testing.
- ★ Battery: over temperature protection.

Wiring

WIRING DIAGRAM 1

(The lamp power is less than 120W and the driver's output current is less than 3A.)

WIRING DIAGRAM 2

(The lamp power is more than 120W and turn off wall switch before testing.)

Prismatic Drop Bottom Lens	200-300W	D405mm		430x430x250mm 25pcs/ctn	14kg

INSTALLATION

UFO LED Highbay Light has four kinds of installation:

1.The suspension loop

2.Bracket type

3.Suspension chain

4.Hook hanger
